## VASCO'S YOUTH ACADEMY REVEALING TALENTS TO THE WORLD

Well-known for having a "Factory of Stars" within its premises, Vasco da Gama became notable throughout its path for developing players who marked an era in the world of football and are in the history of the Brazilian National Squad. Vasco, "The Giant of The Hill", develops its game style based on the victorious Brazilian way. Having a social work aimed at the most diverse ages, Vasco hosts more than 500 athletes to train in different categories.

## SÃO JANUÁRIO STADIUM THE GIANT'S HOUSE

One of the greatest prides of Vasco fans, São Januário was built and fully funded by club members in 1927. The construction was an answer to others big clubs of the age that forbade Vasco of join the league, because we didn't have a field to receive our opponents. In few months, with the mobilization of passionate fans, the biggest stadium of Americas at the time was built. Not surprisingly, today we are the only club of Rio de Janeiro with an own stadium.
